UPAY

Underprivileged's Advancement by Youth

*Koshish ek behtar
Kal ki..*

ABOUT US

Founded in 2010 by group of young engineers ,UPAY is an unique solution to replace the begging bowl with books. When street & slum children are not able to reach to school , UPAY brings School to the these children. The two models which UPAY works upon are Reach & Teach and Footpathshala. While Footpathshala aims to reach to the street children who never been to the schools , Reach & Teach aims to spread quality education even at the most deprived place.

At present UPAY is operating at 38 centers across the country and 1800 children are getting educated.

Through a volunteer based offering, our mission is to join hands with the privileged and already literate human capital of India to eradicate illiteracy from the rest of the country and break the seemingly unbreakable deadlock. Over the last few years, we have made significant progresses in our intended direction and we are more than glad to embrace every help offered to take us forward on the pursuit of this mission.
